Claims 3-14 (canceled).

Claim 15 (previously presented): A pharmaceutical composition, containing a substitution derivative of N6-benzyladenosine according to claim 2, or its pharmaceutically acceptable salt, including a pharmaceutical carrier.

Claim 16 (previously presented): A cosmetic composition, containing a substitution derivative of N6-benzyladenosine according to claim 2, or its pharmaceutically acceptable salt, including a pharmaceutical carrier.

Claim 17 (previously presented): A pharmaceutical composition containing a compound according to claim 2, including a pharmaceutical carrier, suitable as mitotic or antimitotic compound.

Claims 18-21 (canceled).

Claim 22 (withdrawn): A method of treatment, wherein the pharmaceutical composition of claim 17 is used to treat a condition selected from the group consisting of cancer, psoriasis, rheumatoid arthritis, lupus, type I diabetes, multiple sclerosis, restenosis, polycystic kidney disease, graft rejection, graft-versus-host-disease, gout, parasitosis, and Alzheimer's disease, immunostimulation-related condition, and neurogenerative disease.
